Played with family. Love the artistry and the characters!. I have mixed feelings about this game. This is a highly rated game on other sites, so I had high expectations which it didn't fulfil. It took me 8 hours to complete on normal play, so good value for money. Halfway through I started to get bored. Graphics are mixed. General scenes are good, but HO scenes are very basic. Definitely two different artists doing the work. Music is good, but repetitive. Puzzles range from easy to diabolical. I didn't need the strategy guide as the hint button was very helpful. Story was ok.
This is a family friendly game so suitable for children. Not sure if I will continue the series. 7 out of 10.
